## ANGUS ASSOCIATION

Saturday, November 29, 2008

12 noon

Titus County Fair Livestock Pavilion

~ Sale Facility

Mt. Pleasant, Texas

(1/4 mile south of Interstate 30, Exit 162A,  
behind the Mt. Pleasant Civic Center)

Complimentary Lunch Served at 11:30 a.m.

Auctioneer: Lakin Oakley, TX 11469

(903) 277-9610

### A\*L\*O\*T Association Representatives

Bill Stone, President

Ernest Shelton, Vice-President

Learon Roberts, Secretary/Treasurer

James A. Brown, Director for Arkansas

Tom Jones, Director for Arkansas

H. P. Roberts, Directory for Louisiana

Mike Dicks, Director for Oklahoma

Darrin Marical, Director for Oklahoma

Allen Steen, Director for Texas

### Sale Staff

Bill Stone, (903) 965-4282; [bill.stone8@gte.net](mailto:bill.stone8@gte.net)

Ernest Shelton, (903) 628-2178;

[eshelton@aol.com](mailto:eshelton@aol.com)

Learon Roberts, (903) 572-1857;

[roberts@wb4me.com](mailto:roberts@wb4me.com)

Beth Wicker, (903) 667-5581; [alot@alotangus.org](mailto:alot@alotangus.org)

### SALE DAY PHONE

(903)577-9545

### Livestock Publication Representatives

*American Angus Association Regional Manager,*

Jared Murnin (816) 390-7092

*"Oklahoma Cowman"* - A.J. Smith (405) 641-5721

*"The Cattleman"* Wade Perks (817) 916-1781

*"Weekly Livestock Reporter"* John Andras

(817) 789-7352

*"Stock Exchange"* - Ryan Denton (918) 629-3004

### Local Accommodations

**Mt. Pleasant Inn & Suites** (903) 572-5051

**Holiday Inn Express** (903) 577-3800

**Super 8 Motel** (903) 572-9808

(I30 & Bus 271, Exit 162A)

**Days Inn** (903) 577-0152

**Comfort Inn** (903) 577-7553

(I30 & Hwy 271)

# Welcome to the A\*L\*O\*T 2008 FALL Bull Sale!

ALL CATTLE WILL SELL UNDER THE  
STANDARD TERMS AND CONDITIONS OF THE  
AMERICAN ANGUS ASSOCIATION PRINTED IN THE  
BACK OF THIS CATALOG!

A\*L\*O\*T is an agent between the seller and the buyer and is  
not responsible for the guarantee of the animal.

A supplemental sheet will be available sale day with updated  
information. THIS SHEET AND ANY ANNOUNCEMENT  
FROM THE AUCTION BLOCK WILL TAKE PRECE-  
DENCE OVER THE SALE CATALOG.

EPDs listed in this catalog are current Spring 2008.

PLEASE BRING THIS CATALOG TO THE SALE WITH  
YOU!

BUYERS UNABLE TO ATTEND? Please contact one  
of the sale staff or livestock publication representatives  
who will handle your bids honestly and with careful  
selection!

HERD HEALTH: All cattle are either from Certified  
Brucellosis Free Herds or have recently tested negative  
and will be accompanied by the proper Heath Certifi-  
cates for immediate shipment across state lines! **All  
Bulls have passed a breeding soundness exam within  
30 days of the sale.**

ALL CATTLE MUST BE PAID FOR BEFORE  
LOADING OUT UNLESS CREDIT IS ARRANGED  
PRIOR TO THE SALE!

Load out Sheets must be obtained from office  
PRIOR to load out!

LOAD OUT WILL BE AVAILABLE IMMEDIATELY  
FOLLOWING THE CONCLUSION OF THE SALE!  
**CATTLE MUST BE PICKED UP FROM SALE  
FACILITY BY 6:00 P.M. ON THE DAY OF THE  
SALE.**

TRUCKING believed to be reliable will be available  
sale day as well as insurance for your purchases upon  
request.

LIABILITY: All persons who attend the sale do so at  
their own risk, legal or otherwise, for their safety or the  
behavior of the animals.

Breed Average EPD and \$Values - Fall 2008

	PRODUCTION						MATERNAL						CARCASS						\$VALUES

<sup>1</sup>at least one calf recorded in herd book within the past two years

**Expected Progeny Difference (EPD)**, is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. In-termin EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I". And may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

**Accuracy (ACC)**, is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

**\$Value Indexes**, are multi-trait selection indexes, expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

**PRODUCTION**

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which an sire's calves will be born when he is bred to first-calf heifers.  
**Birth Weight EPD (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.  
**Weaning Weight EPD (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.  
**Yearling Weight EPD (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.  
**Yearling Height EPD (YH)**, is a predictor of a sire's ability to transmit yearling height, expressed in inches, compared to the that of other sires.  
**Scrotal Circumference EPD (SC)**, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

**MATERNAL**

**Calving Ease Maternal (CEM)**, is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.  
**Maternal Milk EPD (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.  
**Herds (MkH)**, indicate the number of herds from which daughters are reported.  
**Daughters (MkD)**, reflects the number of daughters that have progeny weaning weight records included in the analysis.  
**Mature Weight EPD (MW)**, expressed in pounds, is a predictor of the difference in mature weight of daughters of a sire compared to the daughters of other sires.  
**Mature Height EPD (MH)**, expressed in inches, is a predictor of the difference in mature height of a sire's daughters compared to daughters of other sires.  
**Cow Energy Value (\$EN)**, expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses). Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

**CARCASS**

**Carcass Weight EPD (CW)**, expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.  
**Marbling EPD (Marb)**, expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.  
**Ribeye Area EPD (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.  
**Fat Thickness EPD (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.  
**Percent Retail Product EPD (%RP)**, is a predictor of the difference in pounds of salable retail product of a given sire's progeny compared to progeny of other sires.  
**Group/progeny (Grp/Pg)**, reflects the number of contemporary groups and the number of carcasses for each sire included in the analysis.

**ULTRASOUND**

**Intramuscular Fat EPD (%IMF)**, is a predictor of the difference in a sire's progeny for percent intramuscular fat in the ribeye muscle compared to other sires.  
**Ribeye Area EPD (RE)**, is a predictor of the difference in square inches of ultrasound ribeye area of a sire's progeny compared to the progeny of other sires.  
**Fat Thickness EPD (FAT)**, expressed in inches, is a predictor of the difference in ultrasound fat thickness at the 12th rib of a sire's progeny compared to the progeny of other sires. It includes the weighted average of 60% of the rib fat measurement and 40% of the rump fat measurement.  
**Percent Retail Product EPD (%RP)**, is a predictor of the difference in pounds of salable retail product as derived from ultrasound measures of a sire's progeny compared to progeny of other sires.  
**Group/progeny (GP/PG)**, is the number of contemporary groups and number of progeny considered in this analysis.

**\$VALUE INDEXES**

\$Value indexes are multi-trait selection indexes, expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment. More Info  
**Weaned Calf Value (\$W)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.  
**Feedlot Value (\$F)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.  
**Grid Value (\$G)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.  
**Quality Grade (\$QG)**, \$QG represents the quality grade segment of the economic advantage found in \$G. \$QG is intended for the specialized user wanting to place more emphasis on improving quality grade. The carcass marbling (Marb) EPD and ultrasound-derived percent intramuscular fat (%IMF) EPD contribute to \$QG.  
**Yield Grade (\$YG)**, \$YG represents the yield grade segment of the economic advantage found in \$G. \$YG is intended for the specialized user wanting to place more emphasis on red meat yield. It provides a multi-trait approach to encompass ribeye, fat thickness and weight into an economic value for red meat yield.  
**Beef Value (\$B)**, an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

LSU BULL SCORING SYSTEM

(This table is used to assist in determining the sale order within each age group at all A\*L\*O\*T bull sales)  
 (Age Groups will be as follows: 12-16 months 17-30 months and >30 months) Group Order will be determined by Auctioneer.

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15

DIRECTIONS: Follow down the left column until you reach the bull's age in months. From this location on the chart, go across the chart until you find the weight which the bull is equal to or above, but not as heavy as the figure just to the left. Follow this column to the top to determine the bull's ranking score. This will give you a comparative number. The lower the number, the higher the bull ranks. If two bulls have the same ranking number, the older bull usually is given priority.

EXAMPLE: A bull 24 months of age which weighs 1510 pounds would rank 12. A bull 26 months of age which weighs 1580 pounds would have a rank of 11. The latter would rank ahead of the previous bull. Designed by: Dr. L. I. "Ike" Smart; Retired Professor, Animal Science Department; Louisiana State University; Baton Rouge, LA 70803

70		771		1269		

A low birth weight 70lbs high performance bull with an outstanding yearling weight of 1269 lbs adjusted. This bull demonstrated excellent feed utilization - over a 60 day test period, he gained an average of 5.15 lbs per day. He has great muscle definition, an athletic build and all indications are that he will be a great herd sire.

19 mos.

69		794		1244		

This young bull has a Connealy Sire pedigree. His feed efficiency was sound with a 4.36 lbs a day gain over a 60 day test period on a limited 3% fat feed. His low birth weight of 69 lbs and excellent EPD's indicates that he could be used as a sire anywhere including heifers within the herd.

19 mos.

**Terms & Conditions**

Suggested\* sale terms and conditions, American Angus Association, March 21, 1994. Except for those stated in the below terms and conditions, there are no warranties, either expressed or implied, as to merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction.

The warranties and guarantees set forth in the "Terms and Conditions" are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through buyer, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

**BIDDING** 1. Each animal will be sold to the highest bidder without reserve. The person in charge will settle any disputes as to bids, and his decision on such matters shall be final.

**TERMS** 1. Terms of sale are cash unless satisfactory credit arrangements, including any possible reservation of security interest by vendor, have been made with vendor previous to sale.

**PURCHASER'S RISK** 1. Each animal becomes the risk of the purchaser as soon as sold; but it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of (48) hours after the sale, whichever occurs sooner.

**CERTIFICATE OF REGISTRY** 1. A transferred certificate of registry will be furnished to the purchaser for each animal within (45) days following date of sale or receipt of full payment.

**HEALTH** 1. All animals are eligible for interstate shipment; except as otherwise announced. Interstate health papers will be furnished for each animal requiring T.B. and Bangs tests in accordance with Federal Regulations. A certificate of vaccination will be furnished for each animal that has been vaccinated for Bangs disease.

**A.I. SERVICE CERTIFICATES** 1. A.I. Service Certificates shall be furnished by the seller, on demand of the buyer, at no cost to the buyer, for all females bred artificially to bulls not owned by the seller.

**ANNOUNCEMENTS** 1. Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

**BREEDING GUARANTEE** 1. All animals are guaranteed to be breeders, with the exception of: a) Calves under twelve months of age; b) Animals shown by purchaser after sale (in cases of animals shown after purchase the breeding guarantees, if any shall be such as agreed upon between the seller and the buyer); c) Injury or disease occurring after sale; d) Gross negligence or willful misconduct on the part of the purchaser.

2. **BULLS** are guaranteed breeders if not allowed to run with the herd until at least 14 months of age. Any bull which settles cows by natural service and passes a fertility test made by competent veterinarians, mutually agreed upon by buyer and seller, during any 6 month period of trial (provided for in paragraph 2 of the section of these sales terms and conditions entitled "Option and Privilege of Return and Adjustment") shall be considered a breeder. Any guarantees with respect to the ability to freeze semen shall be by separate agreement between the buyer and seller.

3. **Safe in Calf Females** have been examined by a competent veterinarian and are so guaranteed.

4. **Served Females** are not guaranteed to be in calf,

5. **Pasture-bred Females** have been exposed but are not guaranteed to be in calf.

6. Open Females have not been served and are so guaranteed,

7. **DONOR FEMALES** 1. (a) A female which has been used in an embryo transfer program is not guaranteed to be a breeder after date of sale unless by separate agreement between the buyer and seller. (b) A female is not guaranteed to be a breeder after date of sale, when that female is to be used, or attempted to be used, in an embryo transfer program, unless by separate agreement between the buyer and seller.

**IDENTIFICATION**

1. Seller offers each animal with a readable tattoo corresponding to its registration

2. Buyer agrees to check tattoos for accuracy.

3. In those cases where a nickname is used, it shall be accompanied by the official registered name and number of the animal.

**OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT**

1. All claims for adjustment or refund must be made in writing either within six months of the sale date or no later than six months after the animal reaches 18 months of age, with the exception of claims involving dwarfs or misrepresentation of service sire.

2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the seller if in good condition and complying with the health requirements of the seller's state. The seller shall be entitled to six months trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal is a breeder, the seller shall, at the option of the buyer, replace the animal with another of equal value or refund the purchase price. The return of the full purchase price shall in any case be deemed full satisfaction and settlement.

Any expense incurred for transporting an animal claimed to be a non-breeder shall be the responsibility of the purchaser, except that the seller shall be responsible for transportation costs in excess of the distance between the purchaser's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it shall be, the obligation of the purchaser to take delivery of the animal and pay all expense incurred for transportation.

3. If a female sold as "safe in calf" proves not to be in calf, the purchaser may receive service from the bull previously used, if available, or if the bull is not available, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller Any adjustment provided for herein shall absolve the seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe in calf" at time of sale to a certain bull proves to have been bred to a different bull, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller (adjustments shall not be considered to be a breeding fee or an allocation of the purchase price to any unborn calf). Any expense incurred for transportation shall be the responsibility of the purchaser, except that the seller shall be responsible for transportation costs in excess of the distance between the purchaser's farm and the location where the sale took place.

4. If a female sold as "open" proves to be with calf, the purchaser may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the purchaser. It shall be the obligation of the seller bear any expense incurred for the transportation.

5. Cows with calves at side are presumed to be breeders with no further fertility guarantee.

6. White skin or hair shall not be painted or altered. If such painting or alteration has occurred, the buyer may return the animal to the farm of the seller for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the purchaser. Any expense incurred for transporting the animal shall be the responsibility of the purchaser, except that the seller shall be responsible for transportation costs in excess of the distance between the purchaser's farm and the location where the sale took place.

7. If an animal is sold, and at a later date, proves not to be eligible for registration under the Association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, or at the buyer's option refund the purchase price upon the return of the animal to the farm of the seller. Any expense incurred for transportation shall be the responsibility of the purchaser, except that the seller shall be responsible for the transportation costs in excess of the distance between the purchaser's farm and the location where the sale took place.

8. If an animal is sold and through blood tying is proven to have incorrect parentage, as represented by the certificate of registration, and for which parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option refund the purchase price upon the return of the animal to the farm of the seller. Any expense incurred for transportation shall be the responsibility of the purchaser, except that the seller shall be responsible for transportation costs in excess of the distance between the purchaser's farm and the location where the sale took place.

**GENETIC DEFECT GUARANTEE**

1. All animals are guaranteed not to produce a calf with the following defects for a period of two years from date of sale: Dwarfism, Osteopetrosis (marble bone disease) and Syndactylism (mule foot). This guarantee is effective only under the following conditions: (a) The buyer shall notify the seller in writing immediately upon the birth of a calf suspected of being defective or immediately after determination is made that such calf is defective.

(b) The seller at his expense shall be permitted, and provided with reasonable opportunity, to obtain blood samples of an alleged defective calf and its sire and dam for the purpose of blood type analysis to establish parenthood.

(c) The animals will be returned by the buyer to the seller at the buyer's expense; provided the animals meet the health requirements of the seller's state.

(d) The return of the purchase price in connection with a defect producing animal shall be deemed full satisfaction and settlement.

2. In the event there is a dispute as to whether or not a calf is defective, the "Determination" referred to in paragraph 1,a) above shall be made by a person or persons acceptable to both the buyer and seller, and in the event that the buyer and seller cannot agree on the selection of such person or persons, then each of them shall appoint a representative to make the determination. In the event that such representatives fail to agree, a third person selected by the representatives of the buyer and seller shall make the determination.

3. Registration certificates issued after January 30, 1979, for animals which, prior to issuance of the certificate, have been reported and verified as carriers of recessive genetic defects or genetic factor or have tested free of certain genetic defects or genetic factor contain the following codes relative to such defect. S-Syndactyly; H-Double Muscling; D-Dwarfism; M-Osteopetrosis; HI-Heterochromia Irides; HG-Horn Gene; R-Red; X-Multiple Defects, Check List for Kind; F-Tested For Defect Printed Without Producing Abnormal Calves; GDF-Produced 35 or more calves from Daughters Without a Genetic Defect or Genetic Factor. The absence of any such notation on a pedigree of an animal, in a sale catalogue, does not establish that the animal in question is not a carrier of any such genetic defect or genetic factor.

**RIGHTS AND OBLIGATIONS**

1. The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

2. Neither the sponsoring association, the sale manager, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.
